### PVC Floor customization

## Design online with KONE Studio

Explore different elevator options and configurations online before starting a new project. Make the right design choices, use the correct dimensions and get accurate planning specifications.

### Design with 3D visuals

Find the look you love with a simple, easy-to-use and free online design tool.

### Use exact building specifications

Optimize planning with accurate and always up-to-date product data.

### Save project details

Test and finalize your custom designs, then make changes later if needed.

### Export CAD and BIM drawings

Identify potential issues and plan ahead to avoid surprises during construction.

## KDS 330 – Built for today, ready for tomorrow

The flush-mounted KDS 330 signalization family for residential and commercial buildings is a revolution in elevator design. Its modular structure means you can swap out different elements – such as the faceplate, display, and even buttons – to add new functions and create a unique look and feel. KDS330 touchless option available.

### Car operating panel (COP)

KONE provides innovative and eco-efficient solutions for elevators, escalators, automatic building doors and the systems that integrate them with today's intelligent buildings. We support our customers every step of the way: from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in managing the smooth flow of people and goods throughout buildings. This makes us a reliable partner throughout the building life cycle. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE 24/7 Connected Services and KONE UltraRope®. KONE employs over 60,000 dedicated experts to serve you globally and locally.
